Course Details :

Course was inaugurated on 30/11/18 10 a.m by the college Principal Rev.Sister Marykutti Alex. 60 First year students were registered for this course and a fee of Rs.600/- were charged from each student to meet expenses of the course including the study material. Classes were conducted from 10 am to 1 p.m and then from 2 p.m to 4 p.m(5 hours a day). Thus the course covered 30 hours by engaging classes for 6 days .The content of the course included basics of English Grammar like parts of speech, kinds of sentences, nouns, pro-nouns ,verbs, adverbs, adjectives, clauses, tenses, passive and active voice etc. Students were also received some personality development and goal setting guidelines.

Students feed back:

Trainer Mr.Jacob John was highly professional in his approach and was an extra ordinarily talented person, Student community benefitted immensely from this course. It was evident from the final day feed back received from students . All of them claimed that the class was much above their expectation and they never experienced English grammar as this much easy and fun . They stated that English is no more a frightening subject. They were full of praise for the Trainer .Hence we presume that the course has been a grant success.

Follow-up action:

As a follow-up action , the students were inducted to an existing English club known as "THE" (The House of English). A whatsapp App group is also started for the participants to continue their practice in english language. Principal was very particular in not loosing regular classes .Hence insisted to conduct such courses during vacation periods or holidays. A plus point of the class was that since it was organised during the semester break, no regular classes were lost. This course is the third certificate course organized by the Department of Economics . First one was an 120 hour duration course with a fee of Rs 6500 and conducted in the year 2015-16. Since, such long course with high fees is difficult to operate in rural areas , college authorities recommended brief duration courses with relatively lighter fees. Hence second programme was a 30 hour certificate course with Rs.500 /-as Fees. It was called "STEP-UP 2017" and 50 students participated in it. Present programme has been a continuation of the same course and named "STEP-UP 2018". It was designed exclusively for the students of first year.

WE WILL WIN @ St. PIUS COLLEGE Tr. J. P. JOHN

MODULE 1: G SCHOOL

A- SENTENCE

A-1 What is it?

We use words when we speak or write and most often we use these words in groups;

as in this sentence; "Once there lived a king who received a boon from God."

Such group of words, which makes complete sense, is called a sentence.

A-2 How many parts?

Generally when we make a sentence, there are two distinct parts. One is called the SUBJECT and the other is called the PREDICATE.

- The part that names the person or thing which we are speaking about is called the subject of the sentence.
- The part that speaks about the subject is called the predicate of the sentence.

Generally, the first part of the sentence becomes the subject [as in (a)], but occasionally it is placed after the predicate [as in (b)] or the subject may be left out in an imperative sentence [as in (c)].

- a) This board game is very interesting.
- b) Down sank The Titanic.
- c) Come here. (The subject 'you' is understood here.)

Additional Skill Acquisition Programme(ASAP)

Government of Kerala has initiated an ambitious Programme, the Additional Skill Acquisition Programme (ASAP) with the objective of tackling the issue of growing unemployment in the state. The Programme aims at equipping selected students with skills in Communication, IT and selected areas of industry and service sectors. At Level 1, ASAP imparts 300 hours of skill training to the selected first year students (30 per batch, maximum 2 batches in an institution). Of this, 180 hours will be a foundation module comprising Communication Skills and IT skills and the remaining 120 hours will be the module related to the skill sector chosen by the student.

Our college has become as a partner institution of ASAP from 2015 and since then 30 students from the college have successfully completed the ASAP regular course. During the academic period 2017-20, 30 students from the college have enrolled for the regular programme. College has conducted three ASAP Summer Skill programme, "Data Entry Operator" (2015), "Animator Course" (2016) and "Field Technician Networking and Storage" (2017) for final year students, during the period of May to June. 90 students have benefited from this Course.

Report on Remedial Coaching for I, III Semester Students

Post Graduate Department of Development Economics

Post Graduate Department of Development Economics has conducted remedial coaching classes for students who had academic arrears. Core papers and elective papers handles by the department teachers are assigned by students who have failed in those papers. Guest faculties are assigned with those students and asked them to brief about the entire Course and discuss engage minimum 10 hours. Previous question papers were discussed and the outcome of the programme was appreciated. The classes where conducted mostly towards the beginning of respective semester exams.

BRIDGE COURSE
DEPARTMENT OF COMPUTER
SCIENCE

Bridge Course

Aim And Objective

The Computer Science Department offers a Basic Computer Awareness programme to bridge the gap between the higher secondary computer syllabi and the university degree syllabi. Each topic is taken by different teachers of the department either in the normal time table schedule or in the evenings. After this bridge programme one hour objective type test is conducted. If require special intensive coaching will be given to students of the lower stream.

MODEL QUESTION PAPER 1

A. Answer all the questions-

1X10=10

- Q1. What is the difference between Hardware and Software?
- Q2. What is primary memory?
- Q3. Write the name of 5 internal and external commands of DOS.
- Q4. What are header and footer? How are they put in document?
- Q5. What is control panel?
- Q6. What is TCP/IP?
- Q7. What are the different symbols used in a Flowchart?
- Q8. What are the characteristics of an Algorithm?
- Q9. What is a variable in c?
- Q10. What is a function in c?

B. Attempt all the questions -

5X2=10

- Q1. What is storage devices? Explain with examples.
- Q2. What is the difference between a ROM and RAM?
- Q3. Explain the concept of LAN and MAN and WAN.
- Q4. What are the different types of charts in MS-Excel?
- Q5. Explain different types of loops in C.

C. Attempt any three questions out of 5-

10X3=30

- Q1. Draw a block diagram of a computer. Explain the function of each of the blocks.
- Q2. Explain input and output devices.
- Q3. Describe the complete process of Mail Merge.
- Q4. (I) Write steps to create a report in MS-Access.
(II) Write steps to create pie chart in Excel.
- Q5. WAP in c whether a given number is palindrome or not.

Roll No: _____

MODEL QUESTION PAPER 2

A. Answer all the questions-

1X10=10

- Q1. What is the difference between System and Application software?
Q2. What is ROM?
Q3. What the difference is between save and save as?
Q4. What for find and replace is used in Word?
Q5. What is Booting Process?
Q6. What is a browser?
Q7. What is a cell in MS-Excel?
Q8. Write any two features of MS-Access.
Q9. What is Arrays in c?
Q10. What is header file in C?

B. Attempt all the questions

5X2=10

- Q1. What is the difference between primary and secondary memory?
Q2. What are different network topologies?
Q3. What is a wizard? How is it different from template?
Q4. What is MODEM? HOW does it work?
Q5. What are the steps in program development?

C. Attempt any three questions out of 5-

10X3=30

- Q1. What is Memory? Explain types of Memory in brief.
Q2. Write short note on-
(I) Taskbar (II) Toolbar (III) Control panel (IV) Scandisk
Q3 (I) What is Macro in MS-Word? What are its features? How can we insert Macros in a document?
(II) What is cell reference? Explain its advantages.
Q4. (I) how does search engine work?
(II) What is a database? Write the advantages of a database
Q5. WAP in c to find factorial of a given number

MODEL QUESTION PAPER 3

A. Answer all the questions-

1X10=10

- Q1. UNIVAC is _____
- Q2. What are two major types of computer chips ?
- Q3. What the difference is between save and save as?
- Q4. List the basic operations performed by a computer ?
- Q5. What is Booting Process?
- Q6. What is a database?
- Q7. What are the different symbols used in a Flowchart?
- Q8. Write any two features of MS-Access.
- Q9. What is structure in c?
- Q10. What is a function in c?

B. Attempt all the questions

5X2=10

- Q1. What is the difference between volatile and non volatile memory?
- Q2. What are storage devices? Explain with examples?
- Q3. What is a web browser?
- Q4. What is Repeater? HOW does it work?
- Q5. What are the steps in program development?

C. Attempt any three questions out of 5-

10X3=30

- Q1. What is process? Explain process steps.
- Q2. Write short note on-
- (I) If statement (II) Switch statement (III) while loop (IV) do..while loop.
- Q3 Explain looping and types of loops in C++.
- Q4. Explain different different types of data types in C .
- Q5. WAP in c to find sum of first n numbers .

DEPARTMENT OF PHYSICS

ST. PIUS X COLLEGE, RAJAPURAM

BRIDGE COURSE SYLLABUS 2015 ADMISSION

TOTAL HOURS: 10

LECTURE - 1 (2 hrs)

Physics as the nature of things
Knowledge and Belief
Average and Instantaneous Speed
Position/time graph to speed/time graph
speed/time graph to position/time graph

LECTURE - 2 (2 hrs)

Average and instantaneous acceleration
Speed vs time graph to acceleration vs time graph
Acceleration vs time graph to speed vs time graph
Constant acceleration graphs and equations
The techniques of finding slopes (how quickly something changes in time or space) and finding areas (the effect of something through time or space) will now be applied to position, speed and acceleration.
Speed and Acceleration - examples. Fully worked answers are provided.

LECTURE - 3 (2 hrs)

Coordinate systems
Vectors and scalars
Polar co-ordinates
Adding vectors sequentially and simultaneously
Subtracting vectors
Vector components and adding by components
Vectors - example problems. Fully worked answers are provided.

LECTURE - 4 (2 hrs)

The work done by a force
Conservative forces
Kinetic energy
Potential energy
Conservation of mechanical energy

LECTURE - 5 (2 hrs)

Basic mathematical tools in physics-
Calculus
Matrix method
Fourier analysis

Answer ALL- Each question carries ONE mark

1. What do you mean by the term 'mechanical equilibrium' ?
2. What is the difference between statics and dynamics?
3. Explain Coulomb's law in electrostatics.
4. Differentiate potential energy and potential in electrostatics.
5. What is electromagnetic induction?
6. A cyclist moves along a circular path of radius $70m$. If he completes one round in $11s$, calculate total length of path.
7. The maximum velocity of a particle, executing simple harmonic motion with an amplitude $7mm$, is $4.4m/s$. Find the period of oscillation.
8. Sketch the region $0 \leq \theta \leq \pi/2$, $\rho \leq 1$ of the cylindrical coordinate system. Define the region in spherical polar coordinate.
9. Find the least distance between two points on the equatorial circle on the surface of the earth having polar coordinates $(R, 0)$ and $(R, \pi/2)$ with respect to the origin at the centre of the Earth.
10. What is the range of azimuthal angle ϕ in the spherical polar coordinates?
11. Write the expressions for the velocity components in spherical polar coordinate system.
12. Find the area of the curved surface of a cylinder of radius r .
13. Find the electric flux passing out of the sphere of radius R , enclosing a charge Q at the centre.
14. Explain the basic conservation laws in physics.
15. Write the Newton's equations of motion.

Answer ALL- Each question carries ONE mark

1. Explain the Newton's laws of motion.
2. What are the fundamental forces in nature?
3. Express the different velocity components in cylindrical coordinate.
4. What is the significance of scalar product in physics?
5. Explain the correlation between work and energy in physics.
6. Find the unit vector in the direction of the sum of the vectors $\vec{a} = 2\hat{i} - \hat{j} + 2\hat{k}$ and $\vec{b} = -\hat{i} + \hat{j} + 3\hat{k}$.
7. Find a vector of magnitude 11 in the direction opposite to that of \vec{PQ} , where P and Q are the points $(1, 3, 2)$ and $(-1, 0, 8)$, respectively.
8. Find the position vector of a point R which divides the line joining the two points P and Q with position vectors $\vec{OP} = 2\vec{a} - \vec{b}$ and $\vec{OQ} = \vec{a} - 2\vec{b}$, respectively, in the ratio 1:2, (i) internally and (ii) externally.
9. Find the angle between the vectors $2\hat{i} + \hat{j} + k$ and $3\hat{i} - 4\hat{j} + \hat{k}$.
10. A rigid body is rotating about a fixed axis with a constant angular velocity ω . Take ω to lie along the Z axis. Express $vecr$ in circular cylindrical coordinates and using circular cylindrical coordinates. (a) Calculate $\vec{V} = \vec{\omega} \times \vec{r}$ (b) Calculate $\nabla \times \vec{V}$.
11. What is the difference between the working of a transformer and amplifier?
12. What is centripetal force?
13. Explain the forces experienced by a particle in electric and magnetic field.
14. What do you mean by the term 'component' of a vector? What are rectangular components?.
15. What is the difference between mass and weight?

A BRIEF REPORT

ADD -ON COURSE IN ENGLISH (STEP-UP 2018) ORGANISED BY THE DEPT.OF ECONOMICS

Department of Economics organized an Add -on course in English known as **STEP-UP 2018**, from 30/11/18 (Friday) to 6/12/18(Thursday). This was designed as a certificate course with 30 hours duration. The major objective of the course was to empower students in basic English grammar. An MOU was signed with "FOCKUS ACADEMIA, KAYAMKULAM, KOLLAM DISTRICT" for this course.

Course Details :

Course was inaugurated on 30/11/18 10 a.m by the college Principal Rev.Sister Marykutti Alex. 60 First year students were registered for this course and a fee of Rs.600/- were charged from each student to meet expenses of the course including the study material. Classes were conducted from 10 am to 1 p.m and then from 2 p.m to 4 p.m(5 hours a day). Thus the course covered 30 hours by engaging classes for 6 days .The content of the course included basics of English Grammar like parts of speech, kinds of sentences, nouns, pro-nouns ,verbs, adverbs, adjectives, clauses, tenses, passive and active voice etc. Students were also received some personality development and goal setting guidelines.

Students feed back:

Trainer Mr.Jacob John was highly professional in his approach and was an extra ordinarily talented person, Student community benefitted immensely from this course. It was evident from the final day feed back received from students . All of them claimed that the class was much above their expectation and they never experienced English grammar as this much easy and fun . They stated that English is no more a frightening subject. They were full of praise for the Trainer .Hence we presume that the course has been a grant success.

Follow-up action:

As a follow-up action , the students were inducted to an existing English club known as "THE" (The House of English). A whatsapp App group is also started for the participants to continue their practice in english language. Principal was very particular in not loosing regular classes .Hence insisted to conduct such courses during vacation periods or holidays. A plus point of the class was that since it was organised during the semester break, no regular classes were lost. This course is the third certificate course organized by the Department of Economics . First one was an 120 hour duration course with a fee of Rs 6500 and conducted in the year 2015-16. Since, such long course with high fees is difficult to operate in rural areas , college authorities recommended brief duration courses with relatively lighter fees. Hence second programme was a 30 hour certificate course with Rs.500 /-as Fees. It was called 'STEP-UP 2017' and 50 students participated in it. Present programme has been a continuation of the same course and named "STEP-UP 2018". It was designed exclusively for the students of first year.

WE WILL WIN @ St. PIUS COLLEGE Tr. J. P. JOHN

MODULE 1: G SCHOOL

A- SENTENCE

A-1 What is it?

We use words when we speak or write and most often we use these words in groups;

as in this sentence; "Once there lived a king who received a boon from God."

Such group of words, which makes complete sense, is called a sentence.

A-2 How many parts?

Generally when we make a sentence, there are two distinct parts. One is called the SUBJECT and the other is called the PREDICATE.

- The part that names the person or thing which we are speaking about is called the subject of the sentence.
- The part that speaks about the subject is called the predicate of the sentence.

Generally, the first part of the sentence becomes the subject [as in (a)], but occasionally it is placed after the predicate [as in (b)] or the subject may be left out in an imperative sentence [as in (c)].

- a) This board game is very interesting.
- b) Down sank The Titanic.
- c) Come here. (The subject 'you' is understood here.)
